

Land Seismic

Marine Seismic

Providing Innovative Solutions to Customers on Every Continent

National Compressed Air offers the widest range of unique compressed air and drilling solutions for oil and gas seismic exploration programs. With our expertise and continuous product improvement driven by client feedback, we can offer high performance solutions that operate under extreme conditions and in any location

Land Seismic Exploration

NCA offers a range of helicopter portable air compressors, man portable air compressors, track carriers and drilling equipment used for seismic shot hole drilling in oil and gas exploration programs

Man Portable Air Compressors

- Volumes upto 175 scfm; Pressures upto 150 psig
- Five Piece Modular Design
- Designed for easy set up and installation on-site

Helicopter Portable Air Compressors

- Volumes upto 390 scfm; Pressures upto 220 psig
- Single or Two Piece Modular Designs
- Various Factory Options Available

Track Carriers

- Small Foot Print – Low Ground Pressures
- Rubber or Steel Tracks
- ROPS approved cabs & various design options

Light Weight and Portable ITH Drills

- Helicopter or People Portable Modular Designs
- Track Carrier Mounted Designs
- Designed for easy set up and operation on-site

Marine Seismic Exploration

NCA offers a range of high pressure compound air compressors used for powering air guns in offshore seismic exploration programs

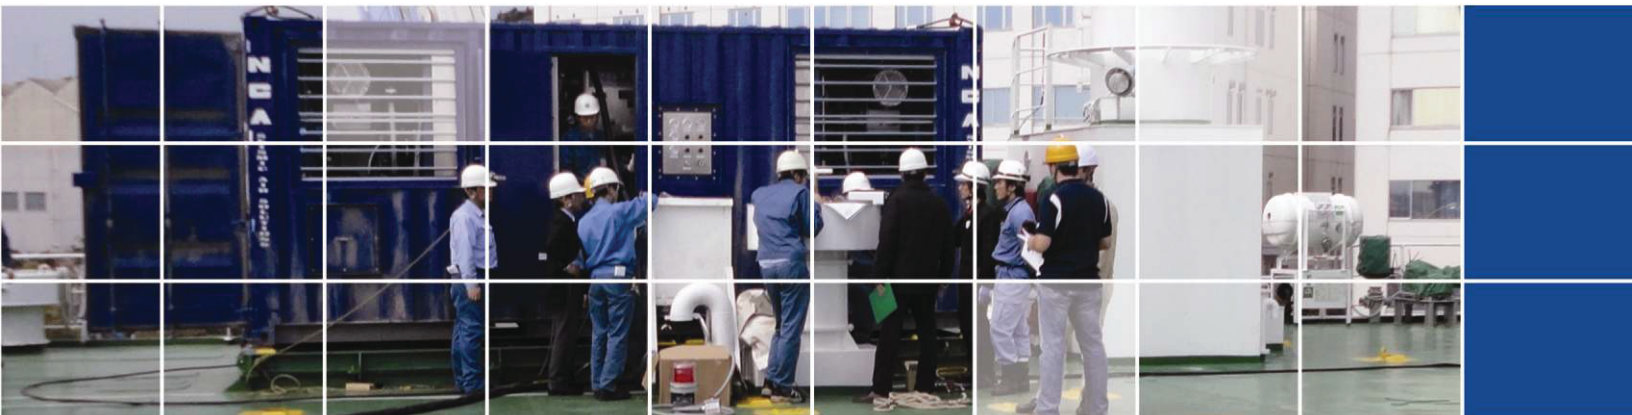

- Volumes upto 2000 scfm; Pressures upto 3000 psig
- Diesel or Electric Drives
- Rugged and Compact Designs

- Air, Sea Water or Keel Cooled Options
- Designed for Marine Operating Conditions
- Skid Base Mounted, Enclosure or Containerized Versions

We Explore Solutions

We take pride in collaborating with our clients and offer solutions that help them succeed. With our team of experienced engineers and technicians coupled with our modular manufacturing techniques and large inventory of parts, we are able to meet our client's unique application requirements. We also deploy factory trained personnel for on-site training and support to any part of the world

Other NCA Products:

- **High Pressure Rotary Screw Air Compressors**
Single-Stage to 250 psig (17.24 barg) pressure
Two-Stage to 500 psig (34.48 barg) pressure
- **Booster Compressors (Air or Nitrogen)**
Rotary Screw to 600 psig (41.38 barg) pressure
Reciprocating to 5000 psig (344.83 barg) pressure
- **PTO Air Compressors**
- **Compound Air Compressors to 5000 psig (344.83 barg) pressure**
- **Custom Engineered Compressor Solutions**

National Compressed Air Canada Ltd.
